Susquehanna, Feb. 15 .- One Fourth of July in Ararat, the boys who were firing the anvil at intervals, ran short of powder, and started around to get some more. When they came to Uncle Sammy Scott, sitting on the grocery steps and telling how his grandfather helped whip the British in Revolutionary days, the old man broke off nis story and said:

Boys, unwards of two years ago a peddler left a keg o' sumthin' in my cooper shop over thar. It may be lassor vinegar, and it may be gunpowder. I an't a anywise sartin what she is, but you'll find it in the corner door. Might knock in the head and see what it is."

Three or four of the boys started for the shop, while Uncle Sammy went on with his yarn. Ten minutes had passed and he was giving the red coats fits at Lundy's Lane, when there came a tremble-a crash-and the cooper hop seemed to be lifted bodily fifty feet in the air. All the men on the steps were rolled off, but Uncle Sammy was one of the first up. Looking across at the heap of debris on fire in a dozen places, he waved his hand and ex-

The agreemnt was reached through the mediation of the grievance committee of the Central Labor union. Every demand has been granted, including "every other Sunday off," a minimum salary of \$12 per week and pay every two weeks. The

matter was adjusted last evening. That the strike of the girls at the Sterling silk mill here will be a longdrawn-out one is the general opinion, both sides being determined. Yesterday afternoon the grievance committee from the striking girls formally presented their list of grievances to the management of the mill, but met with a discouraging reception. Manager Hamlin absolutely refused to reinstate the discharged girls, and would not even read the scale of wages shown him. He said the charges that the mill was receiving work from the Scranton mill, which is on strike, were false, The committee reported the result of their visit to the special meeting of the Central Labor union held last evening, and the grievance committee

Dr. Barrett attended the reverend father during his last filness, two years ago, and upon his death presented a bill against the estate imounting to \$2.875. The claim was disallowed on the ground that the docor failed to prove by competent wit-

Montrose, Feb. 18,-Tomorrow's election promises to be a very tame affair in this borough. Every Republican candidate will without doubt be elected by the customary majorities.

At the annual meeting of the Montrose fire department, held on Friday evening in the parlors of Rescue Hook and Ladder company, the following officers were elected without opposition: Chief engineer, Charles W. Brodhead, of Rescue Hook and Ladder company; first assistant engineer, George H. Watrous, of Rough and Ready Hose and Chemical company, No. 1; second assistant, Gordon D. Ayres, of Montrose Hose company, No. 2; department recorder, Captain H. F. Beardsley, of Rescue Hook and Ladder company. Resolutions were passed highly commending the work accomplished by the retiring chief. Thomas D. Payne, during his two years of ser-

vice. The question of a hose tower was brought up and earnestly discussed. Four members of the borough council were present and all expressed themselves as strongly favoring the erection of a tower. It is hoped that the tower will not be slow in materializing, as it is an actual necessity to the department, as many hundred feet of good, new hose has been ruined within the last year or so, owing to the lack of proper facilities for drying it after being used. It will be the part of prudence and economy for our city fathers to provide for the hose tower at once.
